Houston – Sinomax USA has been recognized for its innovations in foam-based bedding and mattress products.

The manufacturer has been honored as a Top Foam Technology Solution Provider of 2024 by Manufacturing Outlook. This honor will be showcased in Manufacturing Outlook’s upcoming Foam Technology Edition.

Sinomax’s recent innovations include foam formulations with integrated features including machine washability, high airflow, use of sustainable polyols and ability to withstand extreme compression factors, among many others.

“This recognition highlights Sinomax’s commitment to meeting the diverse comfort and functional needs of our customers. We ensure

our products offer the perfect blend of support and softness, with our team of in-house engineers dedicated to advancing foam technologies,” said Frank Chen, CEO of Sinomax USA.

The recognition “underscores Sinomax’s commitment to continuous improvement of its product offerings amid changing industry trends and consumer preferences,” said Martin Thomas, managing editor of Manufacturing Outlook.

Sinomax will showcase its new foam grades and innovations at the upcoming summer Las Vegas Market in its permanent showroom at the World Market Center: B1480.
